WORK HISTORY

VISUAL DESIGNER

March 2021 - present

DigiBenders

- Translated brand strategies into compelling visual identities by conducting in-depth research, developing mood boards, and defining clear creative directions.
- Designed cohesive brand systems, including logos, typography, color palettes, and supporting graphic elements aligned with client goals.
- Created intuitive web layouts and responsive designs with a focus on hierarchy, clarity, and conversion, ensuring visual consistency across devices.
- Led user research initiatives including interviews, surveys, and usability tests to inform design decisions and improve user flows.
- Developed wireframes and interactive prototypes to test hypotheses, iterating based on user feedback and stakeholder input.
- Built and maintained scalable design systems, applying components across product UI to deliver high-fidelity, developer-ready prototypes.
- Projects (*linked*)
